#### Building Inspection Fees and Charges

Critical Stage Inspections are those inspections that are required to be conducted by the Principal Certifying Authority (PCA) throughout the construction phase of a development in order for the PCA to issue an Occupation Certificate at the completion of the works. Each and every critical stage inspection MUST be carried out, however, in certain circumstances and where appropriate, some inspections may be conducted concurrently. Where inspections are conducted concurrently only one (1) inspection fee is applicable. The following table is intended as a guide only and additional inspections or re-inspections and fees may be required by Council at any stage in order for Council to issue the Occupation Certificate.

#### Critical Stage Inspections.

Minimum Critical Stage Inspection

##### Type No.

1. At the commencement of building works, and
2. After excavation for, and prior to the placement of any footings, and
3. Prior to pouring any in-situ reinforced concrete building element, and
4. Prior to covering of the framework for any floor, wall, roof or other building element, and
5. Prior to covering waterproofing in any wet areas, and
6. Prior to covering any stormwater drainage connections including any on-site detention system, control pits or tanks, and
7. Final Inspection - After the building work has been completed and prior to any occupation certificate being issued in relation to the building / development, and
8. Prior to covering of waterproofing in any wet areas, for a minimum of 10% of rooms with wet areas within a building of Class 2,3, or 4; and
9. Swimming Pool Fencing - prior to the pool being filled with water or immediately after being filled with water in the case of an inground fibreglass pool shell, and
10. Any additional inspection, that may be required by Council throughout the course of construction, in order to issue the Occupation Certificate.
