Building Inspection Fees and Charges

Critical Stage Inspections are those inspections that are required to be conducted by the Principal Certifying Authority (PCA) throughout the construction phase of a development in order for the PCA to issue an Occupation Certificate at the completion of the works. Each and every critical stage inspection MUST be carried out, however, in certain circumstances and where appropriate, some inspections may be conducted concurrently. Where inspections are conducted concurrently only one (1) inspection fee is applicable. The following table is intended as a guide only and additional inspections or re-inspections and fees may be required by Council at any stage in order for Council to issue the Occupation Certificate.
