PART 1 ADMINISTRATION AND OPERATION

1. What is the name of this plan?

This plan is called Maitland City Council Section 94A Levy Development Contributions Plan 2006.

2. When does this plan commence?

This plan commences on 26 June 2013.

3. What are the purposes of this plan?

The purposes of this plan are:

- to authorise the Council to impose, as a condition of development consent, a requirement that the applicant pay to the Council a levy determined in accordance with this plan,
- to require a certifying authority (the Council or an accredited certifier) to impose, as a condition of issuing a complying development certificate, a requirement that the applicant pay to the Council a levy determined in accordance with this plan, if development consent was granted subject to a condition authorised by this plan, and
- to govern the application of money paid to the Council under condition authorised by this plan.

4. What does Section 94A of the Environmental Planning & Assessment Act provide?

Section 94A of the Act provides as follows:

94A Fixed development consent levies

- (1) A consent authority may impose, as a condition of development consent, a requirement that the applicant pay a levy of the percentage, authorised by a contributions plan, of the proposed cost of carrying out the development.
- (2) A consent authority cannot impose as a condition of the same development consent a condition under this section as well as a condition under section 94.
- (3) Money required to be paid by a condition imposed under this section is to be applied towards the provision, extension or augmentation of public amenities or public services (or towards recouping the cost of their provision, extension or augmentation). The application of the money is subject to any relevant provisions of the contributions plan.
- (4) A condition imposed under this section is not invalid by reason only that there is no connection between the development the subject of the development consent and the object of expenditure of any money required to be paid by the condition.

5. What land does this plan apply to?

This plan applies to all land within the Maitland local government area.

6. What types of development does this plan apply to?

This Plan applies to all applications for development consent and complying development certificates required to be made by or under Part 4 of the Act in respect of development for any purpose on land to which this plan applies other than:

- development for the purpose of a new dwelling or dwellings and development for the purpose of alterations and additions to existing dwellings or any development ordinarily incidental or ancillary to the use of a dwelling such as swimming pools, garages, sheds, tree applications and the like, or
- any development, the cost of which is to be funded by the Council from development contributions.

Note: Section 94A(2) of the Act provides that *[A] consent authority cannot impose as a condition of the same development consent a condition under this section as well as a condition under section 94.*

7. Development by the public sector and not for profit organisations

Crown development and development by not for profit organisations where they are carried out with an underlying philosophy of community service in accordance with the Development Contributions Guidelines will not be levied contributions under Section 94A.

8. Continuation of existing s94 plans

This plan does not repeal any s94 plans applying in the Maitland local government area, and those s94 plans continue to apply to all development to which they are stated to apply.

9. Council may require payment of the levy as a condition of development consent

Subject to any direction of the Minister under section 94E of the Act which is in force from time to time, this plan authorises the Council to grant consent to development to which this plan applies subject to a condition requiring the applicant to pay the levy to the Council ***provided that*** the Council does not also impose on the consent a condition pursuant to section 94 of the Act.

The Ministerial Direction issued on 10 November 2006 and currently in force authorises Council to require payment of levies as follows:

- 0.5% of the proposed cost of carrying out development where the cost is between \$100,000 and \$200,000
- 1% of the proposed cost of carrying out the development where the cost is greater than \$200,000

Any Ministerial direction under section 94E of the Act which has been made and is in force from time to time is included in Schedule 4 to this plan.

10. Certifying authority must require payment of the levy as a condition of issuing a complying development certificate

If development consent has been granted to the carrying out of development subject to a condition authorised by this plan, then, subject to any direction of the Minister under section 94E of the Act which is in force from time to time, this plan requires a certifying authority (the Council or an accredited certifier) to issue a complying development certificate in respect of development to which this plan applies subject to a condition requiring the applicant to pay to the Council a levy of 1% of the proposed cost of carrying out the development.

If a Ministerial direction under section 94E is in force, this plan authorises the certifying authority to issue a complying development certificate subject to a condition which is in accordance with that direction.

Any Ministerial direction under section 94E of the Act which has been made and is in force from time to time is included in Schedule 4 to this plan.

11. How is the proposed cost of carrying out development determined?

Clause 25J of the Regulation sets out how the proposed cost of carrying out development is to be determined. That clause provides as follows:

25J Section 94A levy—determination of proposed cost of development

- (1) The proposed cost of carrying out development is to be determined by the consent authority, for the purpose of a section 94A levy, by adding up all the costs and expenses that have been or are to be incurred by the applicant in carrying out the development, including the following:
 - (a) if the development involves the erection of a building, or the carrying out of engineering or construction work—the costs of or incidental to erecting the building, or carrying out the work, including the costs (if any) of and incidental to demolition, excavation and site preparation, decontamination or remediation,
 - (b) if the development involves a change of use of land—the costs of or incidental to doing anything necessary to enable the use of the land to be changed,
 - (c) if the development involves the subdivision of land—the costs of or incidental to preparing, executing and registering the plan of subdivision and any related covenants, easements or other rights.
- (2) For the purpose of determining the proposed cost of carrying out development, a consent authority may have regard to an estimate of the proposed cost of carrying out the development prepared by a person, or a person of a class, approved by the consent authority to provide such estimates.
- (3) The following costs and expenses are not to be included in any estimate or determination of the proposed cost of carrying out development:
 - (a) the cost of the land on which the development is to be carried out,
 - (b) the costs of any repairs to any building or works on the land that are to be retained in connection with the development,
 - (c) the costs associated with marketing or financing the development (including interest on any loans),

- (d) the costs associated with legal work carried out or to be carried out in connection with the development,
- (e) project management costs associated with the development,
- (f) the cost of building insurance in respect of the development,
- (g) the costs of fittings and furnishings, including any refitting or refurbishing, associated with the development (except where the development involves an enlargement, expansion or intensification of a current use of land),
- (h) the costs of commercial stock inventory,
- (i) any taxes, levies or charges (other than GST) paid or payable in connection with the development by or under any law.

12. How is the proposed cost of carrying out development indexed?

Pursuant to clause 25J(4) of the Regulation, the proposed cost of carrying out development is to be indexed at least annually before payment to reflect any increase in the *Consumer Price Index All Group Index Number for Sydney* between the date the proposed cost was determined by the Council and the date the levy is required to be paid.

The formula governing indexation of the proposed cost of carrying out development is as follows:

$$IDC = ODC \times CP2/CP1$$

where:

IDC	=	the indexed development cost
ODC	=	the original development cost estimated by the Council
CP2	=	the <i>Consumer Price Index All Group Index Number for Sydney</i> at the time a levy is paid
CP1	=	the <i>Consumer Price Index All Group Index Number for Sydney</i> at the date the original development cost was estimated by the Council.

If in the event the CPI at the time of the review is less than the previous CPI the indexed rates will remain the same.

13. Cost estimate reports must accompany a development application or application for a complying development certificate

A development application or an application for a complying development certificate is to be accompanied by a report, prepared at the applicant's cost in accordance with this clause, setting out an estimate of the proposed cost of carrying out the development for the purposes of clause 25J of the Regulation.

The following types of report are required:

- where the estimate of the proposed cost of carrying out the development is less than \$500,000 - a cost summary report in accordance with Schedule 2;
- where the estimate of the proposed cost of carrying out the development is \$500,000 or more - a detailed cost report in accordance with Schedule 3.

The Council may, by resolution, dispense with the requirement for a cost summary report where the estimate of the proposed cost of carrying out the development is less than \$500,000 generally or in a particular case or class of cases.

14. Who may provide a report for the purposes of clause 12 of this plan?

For the purpose of clause 25J(2) of the Regulation, the following persons are approved by the Council to provide an estimate of the proposed cost of carrying out development in the following circumstances:

- where the proposed development cost is less than \$500,000 - a person who, in the opinion of the Council, is suitably qualified to provide a cost summary report;
- where the proposed development cost is \$500,000 or more - a quantity surveyor who is a registered member of the Australian Institute of Quantity Surveyors or a person who can demonstrate equivalent qualifications

The Council may, at the applicant's cost, engage a person referred to in this clause to review a report submitted by an applicant in accordance with clause 12.

15. How will the Council apply money obtained from the levy

Money paid to the Council under a condition authorised by this plan is to be applied by the Council towards meeting the cost of one or more of the public facilities that will be or have been provided within the area as listed in Schedule 1.

The locations of those facilities are shown on the maps accompanying this plan in Schedule 2.

16. Are there priorities for the expenditure of money obtained from levies authorised by this plan?

While there are no priorities stated in Schedule 1, subject to s93E(2) of the Act and clause 16 of this plan, the public facilities listed are to be provided to support the priorities of Council's Delivery Program or in accordance with any Council resolutions.

17. Pooling of levies

For the purposes of s93E(2) of the Act, this plan authorises money obtained from levies paid in respect of different developments to be pooled and applied by the Council progressively towards the public facilities listed in Schedule 1 in accordance with the staging set out in that Schedule.

18. Obligation of certifying authorities

Pursuant to clause 146 of the Regulation, a certifying authority must not issue a construction certificate for building work or subdivision work under a development consent unless it is satisfied of compliance with any condition requiring the payment of a levy before work is carried out in accordance with the consent. The certifying authority must cause the applicant's receipt for payment of the levy to be provided to the Council at the same time as the other documents required to be provided under clause 142(2) of the Regulation.

19. When is the levy payable?

A levy required to be paid by a condition authorised by this plan must be paid to the Council at the time specified in the condition.

If no time is specified, the levy must be paid prior to the first certificate issued in respect of the development under Part 4A of the Act.

20. What is the Council's policy on the deferred or periodic payment of levies?

The Council does not allow deferred or periodic payment of levies authorised by this plan.

21. Are there alternatives to payment of the levy?

If an applicant for development consent seeks to make a contribution towards the provision of public facilities to meet development other than by payment of a levy or development contributions, the applicant may adopt one of the following procedures.

- ***Offer made to the Council as part of a development application***

If an applicant does not wish to pay a levy or development contributions in connection with the carrying out of development, the applicant may include in the relevant development application an offer to carry out works or provide a material public benefit towards which the levy was to be applied.

The Council will consider the offer as part of its assessment of the development application. If the Council agrees to the arrangement and grants consent to the application, it will substitute a condition of consent under s80A of the Act requiring the works to be carried out or the material public benefit to be provided for a condition requiring payment of a levy under s94A. If the Council does not agree to the alternative arrangement, it may grant consent subject to a condition authorised by this plan requiring payment of a levy.

In assessing the applicant's offer, the Council will have regard to the requirements of the current Practice Note issued by the NSW Government in the *Revised Development Contributions Manual* (DIPNR 2005) and may consider matters such as, but not limited to, the following:

- (a) whether the applicant's offer is consistent with the aims and objectives of this Plan and any other relevant planning controls, policies or strategies,
- (b) whether the applicant's offer would allow the purpose for which the public facility is intended to be used, and the intended timing and manner of its provision, to be met in an effective manner,
- (c) whether the applicant has provided the Council with a specification and costings for construction work that are acceptable to the Council.

- ***Offer made to Council following the grant of development consent requiring payment of a levy***

If development consent has been granted to the carrying out of development subject to a condition authorised by this plan to pay a levy, the applicant must comply with the condition unless it is modified under s96 of the Act.

If the applicant does not wish to pay the levy, the applicant may make an application to the Council under s96 of the Act to modify the consent by substituting for the condition requiring payment of the levy a condition requiring the carrying out of works or the provision of a material public benefit towards the public purpose to which the levy was to be applied.

If the Council approves the application, the applicant will be bound by the substituted condition. If the Council does not approve the application, the applicant will remain bound by the condition authorised by this plan requiring payment of the levy.

In assessing the s96 application, the Council will have regard to the requirements of the current Practice Note issued by the NSW Government in the *Revised Development Contributions Manual* (DIPNR 2005) and may consider matters such as, but not limited to, the following:

- (a) whether the applicant's offer is consistent with the aims and objectives of this Plan and any other relevant planning controls, policies or strategies,
- (b) whether the applicant's offer would allow the purpose for which the public facility is intended to be used, and the intended timing and manner of its provision, to be met in an effective manner,
- (c) whether the applicant has provided the Council with a specification and costings for construction work that are acceptable to the Council.

- ***Offer to enter into a voluntary planning agreement***

If an applicant does not wish to pay a levy, the applicant may offer to enter into a voluntary planning agreement with the Council under s93F of the Act in connection with the making of a development application.

Under the planning agreement, the applicant may offer to pay money, dedicate land, carry out works, or provide other material public benefits for public purposes. Those purposes need not relate to the impacts of the applicant's development nor to the items listed in Schedule 1.

The applicant's provision under a planning agreement may be additional to or instead of paying a levy in accordance with a condition of development consent authorised by this plan. This will be a matter for negotiation with the Council.

The offer to enter into the planning agreement together with a copy of the draft agreement should accompany the relevant development application.

The Council will publicly notify the draft planning agreement and an explanatory note relating to the draft agreement along with the development application and will consider the agreement as part of its assessment of that application.

If the Council agrees to enter into the planning agreement, it may impose a condition of development consent under s93I(3) of the Act requiring the agreement to be entered into and performed. If the Council does not agree to enter into the planning agreement, it may grant consent subject to a condition authorised by this plan requiring the payment of a levy.

Applicants should refer to the Council's *Policy on Planning Agreements*, which has been prepared having regard to the Practice Note on Planning Agreements contained in the *Revised Development Contributions Manual* (DIPNR 2005).

22. What definitions apply?

In this Plan unless the context or subject matter otherwise indicates or requires:

ABS means the Australian Bureau of Statistics,

Act means the Environmental Planning and Assessment Act 1979,

Council means Maitland City Council,

development contributions means development contributions required to be paid by a condition of development consent imposed pursuant to section 94 of the Act,

levy means a levy under s94A of the Act authorised by this plan,

Minister means the Minister administering the Act,

public facility means a public amenity or public service,

Regulation means the *Environmental Planning and Assessment Regulation 2000*,

s94 plan means a contributions plan made pursuant to section 94EA of the Act, which authorises the imposition of conditions of development consent requiring the payment of development contributions.

PART 2 EXPECTED TYPES OF DEVELOPMENT IN THE COUNCIL'S AREA AND THE DEMAND FOR PUBLIC FACILITIES TO BE FUNDED BY THE LEVY

This Part of the Plan broadly identifies the expected types of development in the Maitland Local Government Area linked to the demand for additional public amenities and services. The relationship is based upon current demographic information together with key trends in commercial, industrial and employment generating development expected in the LGA.

Maitland LGA continues to experience one of the highest inland growth rates in NSW. Population growth is currently 2.5% per annum and is expected to continue, if not exceed this rate over the following years. Based upon data from the Australian Bureau of Statistics, the Hunter Valley Research Foundation and Council's own statistical analysis of approved developments, the current population of 60,000 people is expected to increase to 77,000 people by 2015.

Maitland, because of its strategic location, is increasingly being recognised as a key centre in the Lower Hunter Region for employment generating development. Significant employment generation brings with it increasing demands on the local infrastructure network.

The likely population growth, together with new commercial, industrial and other employment generating developments will place increasing pressure on existing public amenities and services as well as creating the demand for new facilities. This additional growth will also diminish the enjoyment and standard of public facilities for the existing population unless additional or augmented facilities are provided to meet the additional demand.

The proposed Section 94A levy will enable Council to provide additional public facilities to meet these expected demands. The types of public facilities to be provided are set out in Schedule 1.

Schedule 1 Works Schedule (Clause 14)

Public facilities for which levies will be sought

Item	Asset Type	Location	Estimate
603	Buildings	Amenity Buildings - Various	\$200,000

Schedule 4 – Ministerial Directions

ENVIRONMENTAL PLANNING AND ASSESSMENT ACT 1979

DIRECTION UNDER SECTION 94E

I, the Minister for Planning, under section 94E of the *Environmental Planning and Assessment Act 1979* ("the Act"), direct consent authorities that:

- (1) The maximum percentage of the levy for development under section 94A of the Act, having a proposed cost within the range specified in the Table to Schedule A, is to be calculated in accordance with that Table.
- (2) Despite subclause (1), a levy under section 94A of the Act cannot be imposed on development:
 - a) for the purpose of disabled access,
 - b) for the sole purpose of affordable housing,
 - c) for the purpose of reducing the consumption of mains-supplied potable water, or reducing the energy consumption of a building,
 - d) for the sole purpose of the adaptive reuse of an item of environmental heritage, or
 - e) other than the subdivision of land, where a condition under section 94 of the Act has been imposed under a previous development consent relating to the subdivision of the land on which the development is proposed to be carried out.

In this direction words and expressions used have the same meaning as they have in the Act. The term "item" and "environmental heritage" have the same meaning as in the *Heritage Act 1977*.

This direction does not apply to development applications and applications for complying development certificates finally determined before 1 December 2006.

FRANK SARTOR, M.P.,
Minister for Planning,
Sydney.

[Dated: 10 November 2006]

SCHEDULE A

Proposed cost of the development	Maximum percentage of the levy
Up to \$100,000	Nil
\$100,001–\$200,000	0.5 percent
More than \$200,000	1.0 percent

ENVIRONMENTAL PLANNING AND ASSESSMENT ACT 1979

DIRECTION UNDER SECTION 94E

I, the Minister for Planning ('Minister'), being the Minister administering the *Environmental Planning and Assessment Act 1979* ('the Act'), pursuant to s94E of the Act, direct consent authorities that:

- (1) A condition pursuant to section 94A of the Act cannot be imposed in respect of any component of a school development that is a BER Project.
- (2) There are no public amenities or public services in relation to which a condition pursuant to section 94 of the Act may be imposed in respect of any component of a school development that is a BER Project.

Notes do not form part of this Direction.

Definitions:

- (1) Words and expressions used in this Direction have the same meaning as in the Act, except where otherwise indicated.
- (2) The following definitions apply in this Direction:

"BER Project" means a Building the Education Revolution project undertaken pursuant to the Building the Education Revolution program and funded by the Commonwealth under the *Nation Building and Jobs Plan, Appropriation (Nation Building and Jobs) Act (No.1) 2008 - 2009* and the *Appropriation (Nation Building and Jobs) Act (No.2) 2008 - 2009*.

"School" means a government school or non-government school within the meaning of the *Education Act 1990*.

Minister for Planning

Dated 7 September 2009

Notes:

1. Section 94E-C(1A) of the Act provides as follows:

The imposition of a condition by an accredited certifier as authorised by a contributions plan is subject to compliance with any directions given under section 94E (1) (a), (b) or (d) with which a council would be required to comply if issuing the complying development certificate concerned.
