## Acknowledgement of Country

We acknowledge the Wonnarua People as the Traditional Owners and Custodians of the land within the Maitland Local Government Area. Council pays respect to all Aboriginal Elders, past, present and future with a spiritual connection to these lands.

# Our fees and charges

Established categories for fee waiving or reduction (under Council Policy provisions) Under Section 610E of the *Local Government Act 1993*, Council may waive or reduce fees in accordance with the following provisions:

- A council may waive payment of, or reduce, a fee (whether expressed as an actual or a maximum amount) in a particular case if the council is satisfied that the case falls within a category of hardship or any other category in respect of which the council has determined payment should be so waived or reduced.
- However, a council must not determine a category of cases under this section until it has given public notice of the proposed category in the same way as it is required to give public notice of the amount of a proposed fee under section 610F (2) or (3).

Council has determined that on application, fees may be waived or reduced in the following categories:

- **Hardship** – evidence must be provided that the payment of the fee or charge will cause and impose significant financial hardship on the applicant due to their particular circumstance.
- **Charity** – where the applicant demonstrates that they are a registered charity and the service they are providing will supply a significant charitable service to the community.
- **Community benefit** – where an applicant can demonstrate significant community benefit, a fee or charge may be reduced or waived at Council's discretion.
- **Illness or death** – where an applicant can demonstrate serious illness, serious accident or death of a customer's immediate family member.

Applicants must provide all relevant information demonstrating eligibility for a fee reduction or waiver to Council for assessment in accordance with the fee waiving categories.

#### Subdivision Works Certificate - Council

In NSW the provision of these services is generally contestable with private certifiers apart from where certain building constructions have been gazetted as only being certifiable by councils. Where that category is not contestable, it should be interpreted to mean potentially contestable. That is, even if there is no private certifier practicing in your council area, GST should be charged for the issuing of these certificates.
