POLICY OBJECTIVES

The objectives of this policy are to:

- Outline Council's commitment to the principles of engagement to inform Council decision making
- Establish a framework for the design, planning and management of community engagement across the organisation
- Embed a philosophy of community engagement as a core part of how Council does business.

POLICY SCOPE

This policy applies to Councillors, the General Manager, staff, volunteers and contractors as it pertains to all community engagement activities undertaken to inform Council decision making.

POLICY STATEMENT

Maitland City Council is committed to ensuring meaningful, informed and genuine community engagement contributes to Council decision making and problem solving. Council will align its engagement with international best practice, most notably the International Association of Public Participation's (IAP2) Core Values. Engagement activities will reflect the social justice principles of access, equity, participation and rights as well as Council's adopted guiding principles.

1. Council's commitment to engagement

Council is committed to proactively engaging our community to inform decision making, where appropriate. We will ensure staff have the training and skills they need to plan, design and manage engagement and provide opportunities to build organisational capacity to embed engagement as a core part of how Council does business.

2. Principles of community engagement

Our community engagement principles are shaped by our Guiding Principles and are our promise to the community about how, when, why and who we will engage.

Council will be guided by the following principles for community engagement:

- Make things easy – we deliver communication and engagement opportunities that are accessible, relevant, and easy to understand.
- Be Welcoming – we are inclusive, encourage a diversity of voices to be heard, and make it easy for everyone who will be affected by a decision the opportunity to participate.

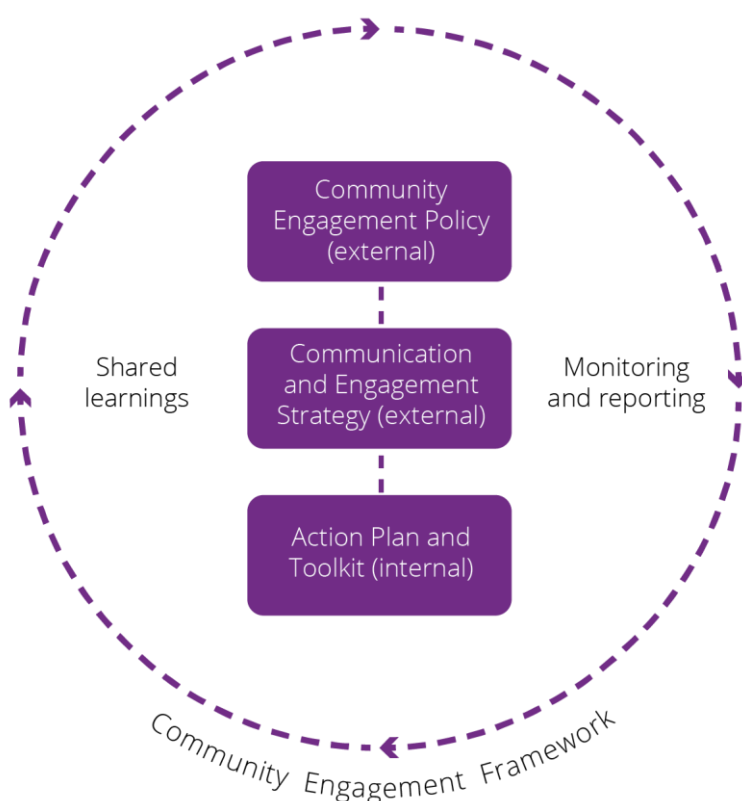

- Be Open Minded – we embrace innovation and encourage new ideas.
- Look Out for Me – we listen, value and respect community input as part of our decision making.
- Keep your promises – we engage openly and honestly and build trust and understanding in our community, and use community input and feedback to deliver the best community outcomes.

3. Community Engagement Framework

The Community Engagement Framework will comprise of an external Communication and Engagement Strategy, and an internal action plan and toolkit to outline key actions and to support staff.

Figure 1: Maitland City Council's Community Engagement Framework

The framework is based on an adapted model of IAP2 Australasia's Community Engagement Model, that succinctly describes the different levels of engagement. The model recognises that community engagement is not a one way path from Council to community. Council is committed to this approach and will use the model to identify the most appropriate roles for Council and the community.

* In most cases, decisions that will impact the community are made by the elected Council unless otherwise specified as part of the engagement project or by delegation to the General Manager or other nominated Council officer. There are a range of other factors that need to be considered and balanced during the decision making process such as budget, social, economic, and environmental impacts, legislation, governance, policies, and technical advice, therefore the Empower level of participation has not been included in Council's Community Engagement Framework.

IAP2's Public Participation Spectrum will be used by Council to help identify the level of influence and participation that is required. The spectrum also sets out Council's approach for selecting the tools and channels for different stakeholders for all communication and engagement to ensure transparency about what the community can influence and what it cannot, from Inform to Consult, Involve, Collaborate and Empower.

POLICY DEFINITIONS

- Community:** Anyone affected by or interested in a decision of Maitland City Council. It includes individuals and groups of people, stakeholders, interest groups and community groups.
- Engagement:** A planned process with the specific purpose of working with organisations, stakeholders and our community to solve problems and/or shape decisions in relation to a problem, opportunity or outcome. It is also known as community consultation, stakeholder engagement and public participation.
- Stakeholder:** A stakeholder is an individual, a group of individuals, organisation/s or political entity with a specific stake in the outcome of a decision.
